

The Banner School Summer Discovery Camp Photo Consent Waiver

As part of our summer camp program at The Banner School students and campers are occasionally asked to be photographed or videotaped or have their work displayed. Additionally, photographers may be hired through the school's Marketing Office for public relations efforts. On these occasions, photos and videos of students, classes, facilities, activities, and events on The Banner School campus may be reproduced in brochures, informational videos, school newsletters, reports, and newspaper and magazine articles. Images may also be used on the Banner School website.

Though the freedom to photograph and videotape as needed would be convenient, we understand that some parents may prefer that their children NOT be photographed for these purposes as outlined above. Unless indicated to the contrary below, The Banner School will assume that your child may be photographed or videotaped by the news media or by Banner Staff and also that the student's likeness, name, performance, art work or written work may be used in print and broadcast media and on the world wide web.

Yes, The Banner School has authorization to photograph or videotape my child.

No, The Banner School **DOES NOT** have my authorization to be photographed or videotaped for public relations purposes. I also understand that my child might be removed from a photo or video setting in this instance and that is my responsibility to explain any inconvenience or confusion that results on the part of my child.

Student Name: _____

Parent/Guardian Signature: _____

Date: _____
